

◀ Assembly Instructions

Instructions

1 Separate all parts along the lines. Mark their identity on the back to avoid confusion.

2 Cut out parts which are marked with an 'x'.

3 Use a pen whose ink has dried out, or a tracer, to trace lines first.

4 Fold all parts along the lines.

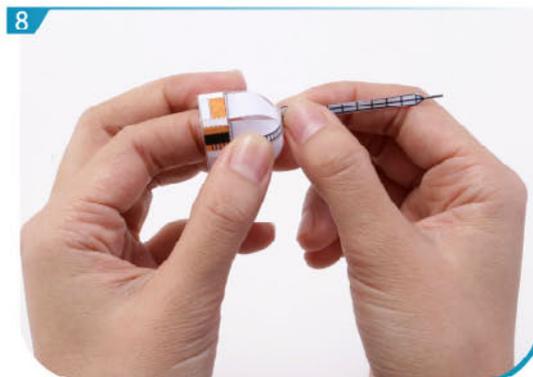

5 Fold and glue C01, make a fine cut along the line.

6 Fold and glue C04, C08, C09, C10 and C12 to form different storeys.

7 Fold and glue C11, making 4 identical parts.

8 Glue C02 and C04 together, then glue C01 to it.

9
Glue C03 and C04 carefully.

10
Glue C06 and C08 first, then bind C08 to C11, matching the red dots. Finally glue C09.

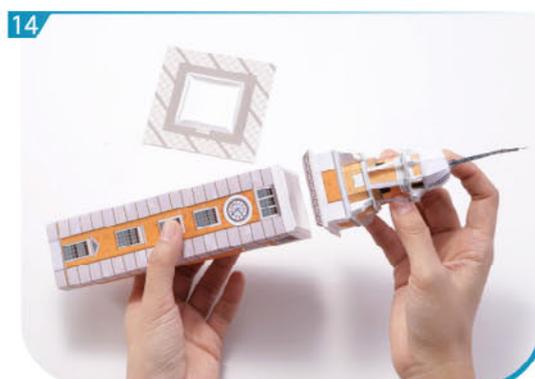

11
Glue C07 between the pillars of C05 to form the rail.

12
Glue C05 and C06 together, matching the green dots.

13
Assemble all the parts.

14
Finally, glue C12 and C13 to build the tower.
